Thanks Larry. I'm vetting it through program and will let you know asap – I am shooting for no later than Monday as long as I can force an internal review ☺

Happy weekend, Isabella

Hi Isabella,

I am attaching a revised version of the draft MOU and a redline showing changes to the document following receipt of your draft on May 1. Please review and let me know if it looks OK. If so, I will start routing it for management review and signature here at EPA.

Hi Larry,

We are looking at entering an order (probably call it Consent Agmt) with them. Also, program was asking about status of the RI/FS, because the 3<sup>rd</sup> pg of the MOU says that DTSC doesn't assume oversight until the RI/FS is completed by EPA. And finally, I missed a correction on the 4<sup>th</sup> page, 3<sup>rd</sup> bullet, that the MOU will be terminated after RD/RA, not approval of the RAP. Can you correct those before sending out final?

Thanks,

Isabella

Isabella,

Is DTSC going to issue an order for RD/RA work for OU-10? My DOJ attorney wants to know.

Hi Larry,

Sounds good. And I have the MOU after our call (actually did it right away) but had to vet my changes through program. I did hear back and they are good with it, so I've attached what I hope is final and captures our call re: RAP and RD/RA, along with the ROD, etc.

I'm in this week and next if you want to talk. Thanks a lot,

Isabella

Isabella,

The State and Aerojet seem to be off to races without a final FS or MOU in place.

See below.

**Subject:** Keller, Lynn has shared 'Aerojet A40 RAP-CEQA'

Hello. Aerojet's RAP and CEQA documents were revised and sent to the public today to start the comment period. The RAP should summarize the FS, which is not yet finalized. The link to both documents is provided FYI:

Thank you,

Lynn
